

LPA SalesView™

YOUR IMPORTANT SALES INFORMATION AT YOUR FINGER TIPS - WHEN YOU NEED IT

Your sales organization's information - pipeline, profit, revenue, etc. - is one of your most important assets.

LPA SalesView™ puts this important information at your finger tips, utilizing state-of-the-art technology combined with many years of business experience.

LPA SalesView™ is going to allow our customers to quickly begin to leverage their valuable information.

Don Soule, President, LPA Systems, Inc.

LPA SalesView™ uses a pre-defined data warehouse combined with Cognos Business Intelligence to provide our clients with an extensible sales reporting solution.

Pre-built content incorporates role-based dashboards, holistic reports and flash reports with many other useful, standard reports.

LPA SalesView™ is designed to be implemented in days, not the months that custom development would take. Get started today and extend the solution over time, as your business evolves.

Please call us today for more information ►►
