

Leveraging the
Power of
Analytics / LPA

LPA's financial analytics consultants have been my go to Partner for over 7 years. They are incredibly responsive.

HospitalityInsight is a unique and customized LPA Framework designed specifically for CFO's and financial executives in Hospitality, working to improve profits, reduce cost, and reduce budgeting and forecasting planning cycles using Best Practices.

- Develop and share the single version of Financial Truth with speed and confidence
- Eliminate the need for a manual merge of Excel spreadsheets, with flexibility and accuracy
- Create highly flexible ad-hoc reports and views
- Automate data consolidation from many sources, including property management systems
- Reduce Planning Cycles
- Create in-depth dynamic Executive Dashboards with multiple KPIs and STR Data
- Use predictive analytics to determine optimum staffing levels and room profitability
- Customize your finances with our robust LPA Framework designed especially for Hospitality
- Generate daily forecasts and manage REVPAR
